

# Findings from the 2019 Stack Overflow Developer Survey

Pratik Kumar Singh

06/18/2024

# OUTLINE

---

- Executive Summary
- Introduction
- Methodology
- Results
  - Visualization – Charts
  - Dashboard
- Discussion
  - Findings & Implications
- Conclusion
- Appendix

# EXECUTIVE SUMMARY

---

- Goal of Data Analysis & Contextualization
- An Explanation of Methodology
  - Collection of Data
  - Interpretation of Data
  - Visualization of Data
- Graphs and trends are used to assist the result presentation
- Overview of the result and their ramifications in relation to the previously disclosed data
- Final findings from the investigation that was conducted

# INTRODUCTION

---

- The biggest and most thorough study of programmers worldwide is Stack Overflow's yearly developer study
- Not every member of the development community is equally represented in the results
- There are about 90,000 developers
- Patterns to forecast the direction of the developers
- The Global characterization of the developers

# METHODOLOGY

---

- Gathering of survey information and examines its content using Web Scraping, APIs and Library Requests
- Data Cleaning
- Exploring Data
- Managing Anomalies
- Correlation
- Getting Data Insights
- Draw attention to the linkages, compositions, distributions and comparisons of the data
- Dashboards

# RESULTS

---

# PROGRAMMING LANGUAGE TRENDS

## Current Year

Top 10 Programming Languages Used

LanguageWorkedWith

● Bash/Shell/PowerShell ● C# ● C++ ● HTML/CSS ● Java ● JavaScript ● PHP ● Python ● SQL ● TypeScript

## Next Year

Top 10 languages desires in upcoming years

LanguageDesireNextYear

● Bash/Shell/PowerShell ● C# ● Go ● HTML/CSS ● Java ● JavaScript ● Kotlin ● Python ● SQL ● TypeScript

# PROGRAMMING LANGUAGE TRENDS - FINDINGS & IMPLICATIONS

---

## Findings

- Most of the popular programming languages are javascript, html/css and sql
- Power Shell prevailed next year

## Implications

- Python is growing faster and it will be going to use in upcoming years
- Languages like Typescript are also introduced by developer to solve industrial issues
- Languages like Go and Kotlin are also introduced by developer to solve industrial issues

# DATABASE TRENDS

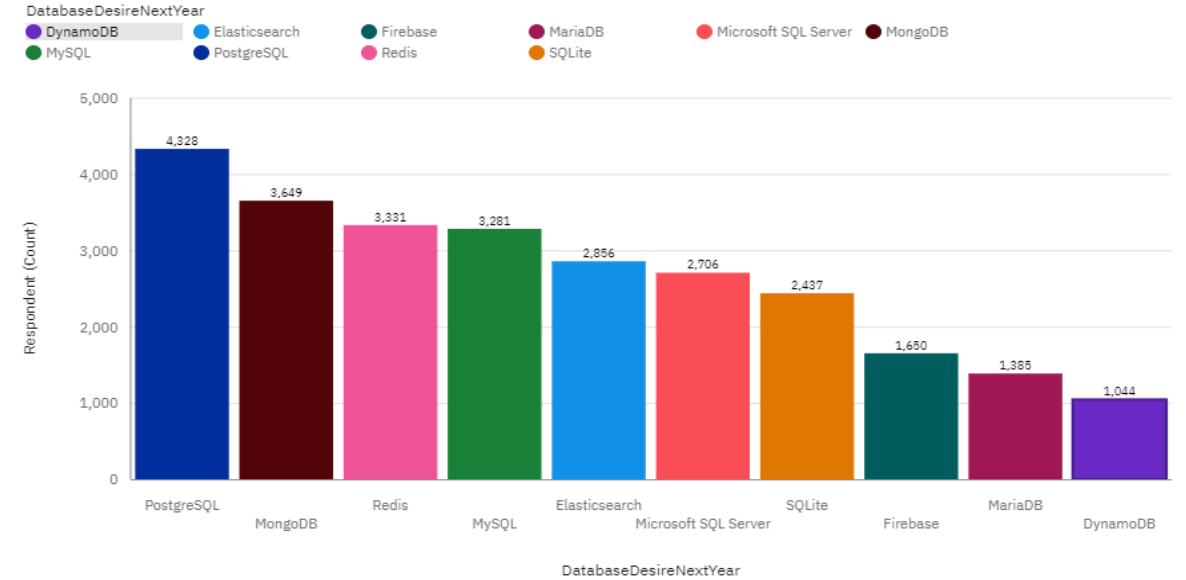

## Current Year

Top 10 Database worked with

## Next Year

Top 10 databases desires in upcoming years

# DATABASE TRENDS - FINDINGS & IMPLICATIONS

---

## Findings

- Most of the databases used by the developers are My SQL, My SQL Server and Postgres SQL but there might be a chance that in upcoming years Postgres SQL would beat the race and will be used by maximum number of developers

## Implications

- **Mongo DB** is growing faster, and it will also be used in upcoming years
- Losing of interests on the other databases like SQLite, Redis and so on

# DASHBOARD

---

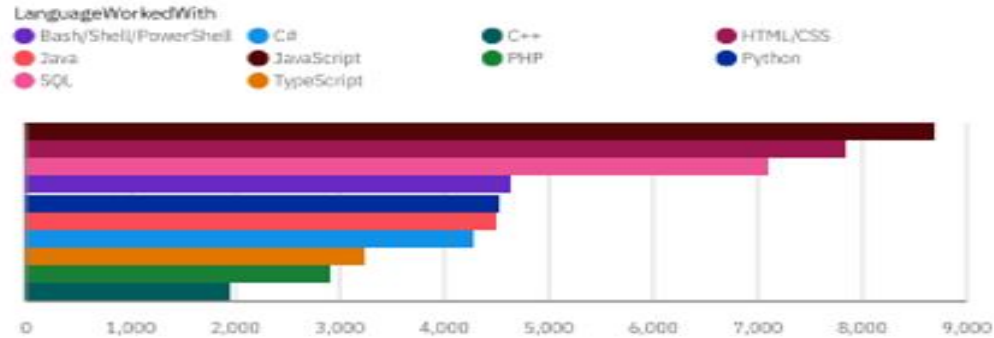

<https://github.com/PratikSingh120897/Assignments/blob/main/SurveyData.pdf>

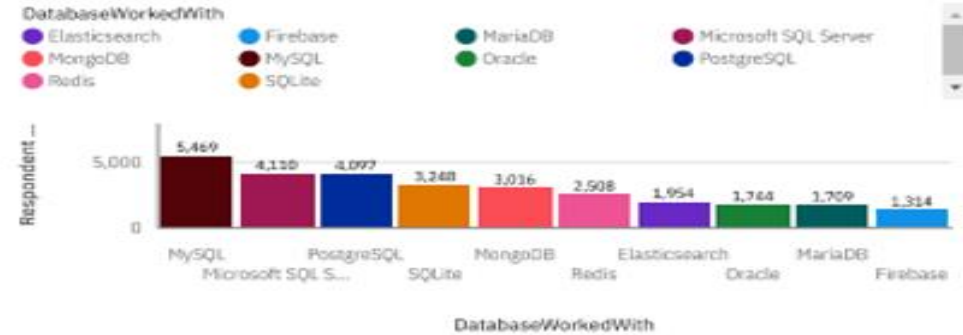

# DASHBOARD TAB 1

## Current Technology Usage

### Top 10 Programming Languages Used

### Top 10 Database worked with

### Top 10 Platform Used

### Top 10 Web Framework Used

# DASHBOARD TAB 2

## Future Technology Trend

### Top 10 languages desires in upcoming years

### Top 10 databases desires in upcoming years

### Top 10 platform desires in upcoming years

### Top 10 web-frame desires in upcoming years

# DASHBOARD TAB 3

## Demographics

Respondent classified by Gender

Gender  
Woman Man

Respondent for Country regions

Respondent (Count)  
1 3,127

Respondent by Age

Respondent Count by Gender, classified by Formal Education Level

EdLevel

Associate degree Bachelor's degree (BA, BS, B.Eng...  
I never completed any formal edu... Master's degree (MA, MS, M.Eng...  
Other doctoral degree (Ph.D, Ed.D... Primary/elementary school

# DISCUSSION

---

- Trends in technology: Current & Future
- Female involvement in technology sector
- Get rid of age & education-based hiring discrimination age

# OVERALL FINDINGS & IMPLICATIONS

---

## Findings

- Most of the popular programming languages are javascript, html/css and sql
- Power Shell prevailed next year
- Most of the databases used by the developers are My SQL, My SQL Server and Postgres SQL but there might be a chance that in upcoming years Postgres SQL would beat the race and will be used by maximum number of developers
- Most of the platform are currently using and continue their legacy in upcoming years are Linux, Docker, AWS and Windows
- Most of the web framework used by developer are jQuery, Angular/Angular.js, React.js and ASP.NET, however in upcoming years Vue.js gain its popularity
- As per formal education level, men have more degree than women

## Implications

- Python is growing faster and it will be going to use in upcoming years
- Languages like Typescript are also introduced by developer to solve industrial issues
- Languages like Go and Kotlin are also introduced by developer to solve industrial issues
- Mongo DB is growing faster, and it will also be used in upcoming years
- Losing of interests on the other databases like SQLite, Redis and so on
- Most of the respondents are men

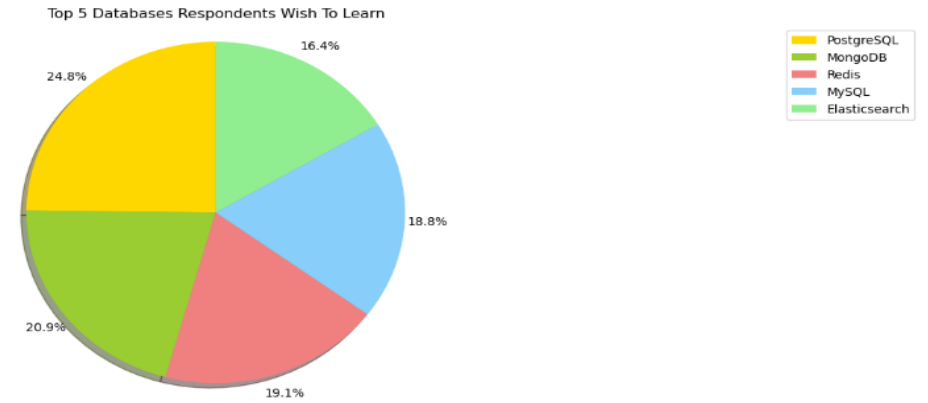

# CONCLUSION

---

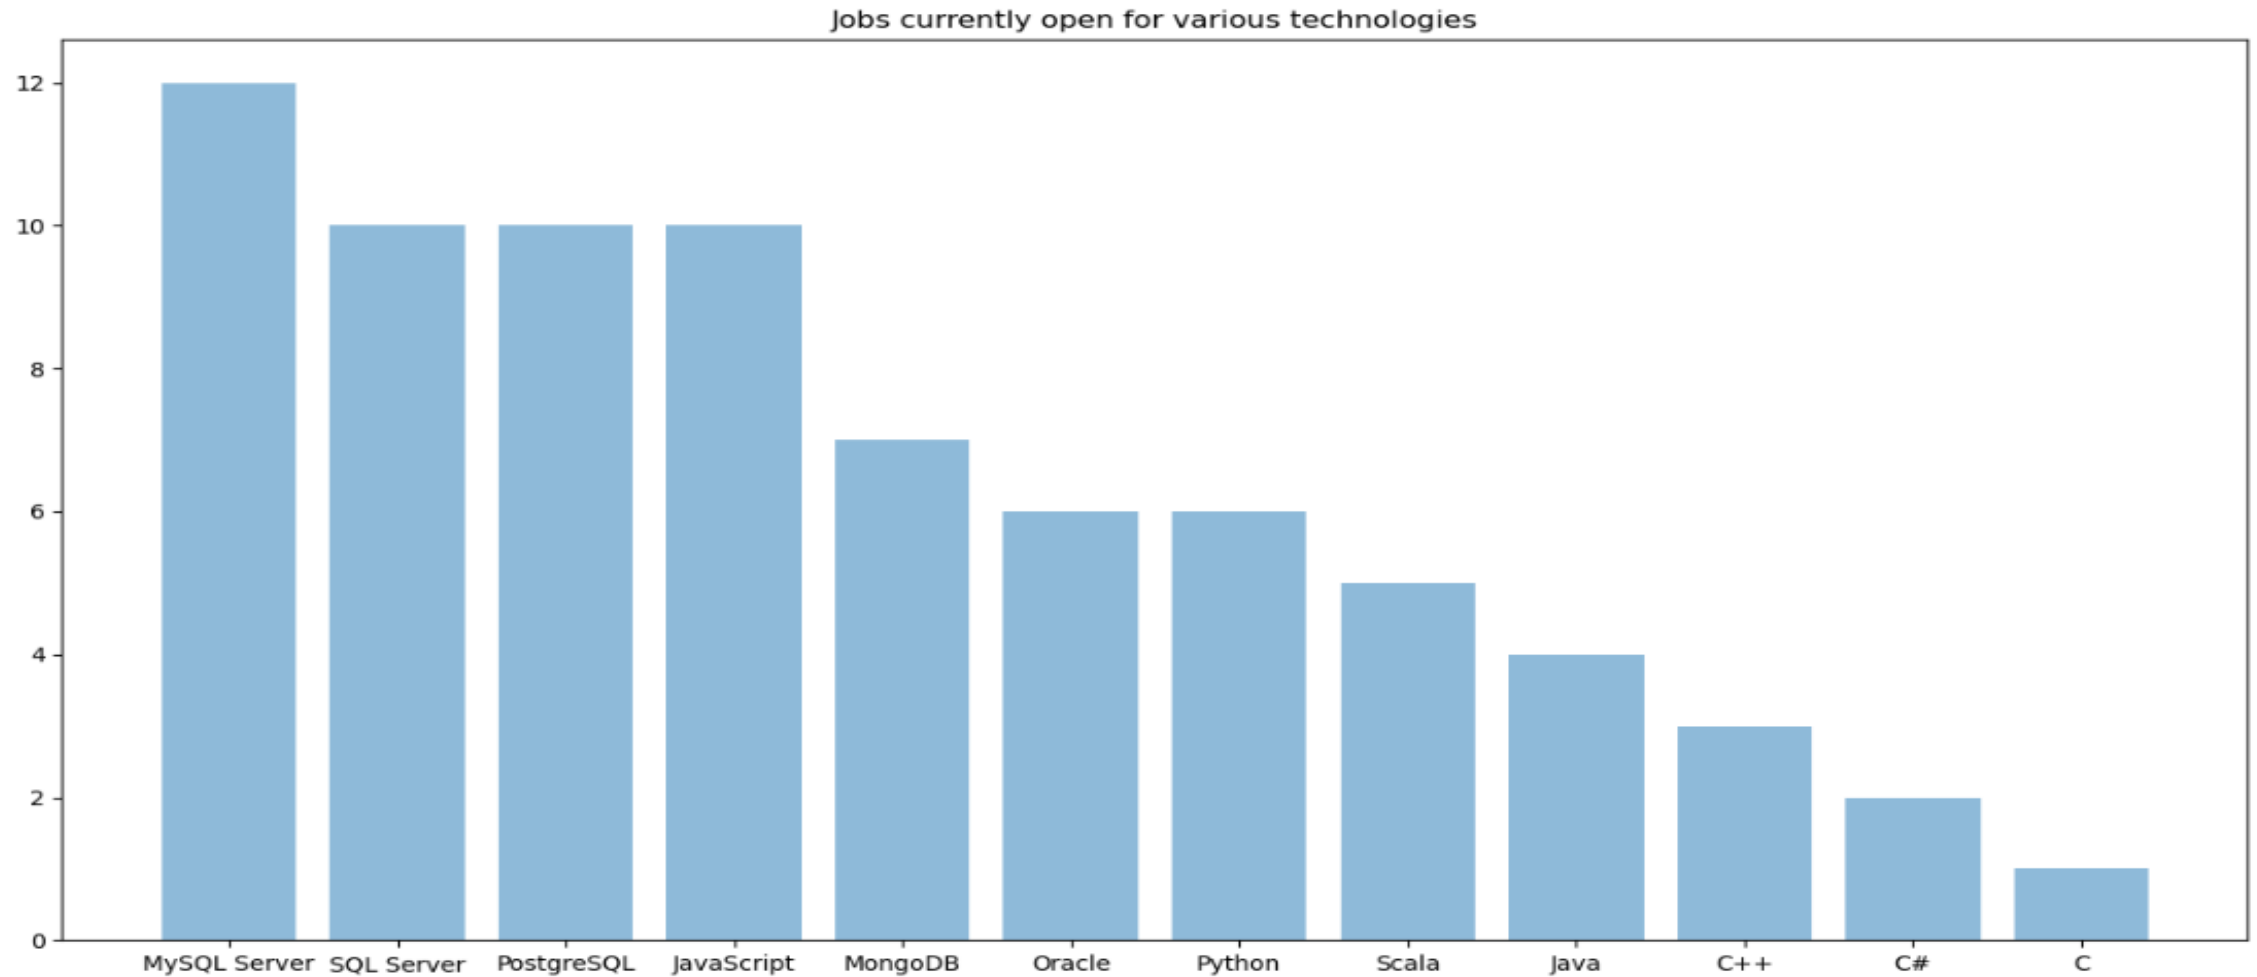

- It is possible to get decent notion of the popularity patterns of various tools, platforms and languages
- Works need to be done to expand this labor market's accessibility to developing nations
- More female respondents should be participated in survey

# APPENDIX

# JOB POSTINGS

# POPULAR LANGUAGES
